

EDUCATION

Degree	Institute	Year
B.Tech (cse)	Usha Martin University Ranchi, Jharkhand	2022-2026
12th	Muz College Masaurhi, Patna (BSEB)	2021
10th	Delhi Central Public School (CBSE)	2019

PROJECTS

Bottle Brand Management System

[\[BOTTELS-Brand\]](#) [\[GitHub\]](#)

React.js, Node.js, Express.js, MongoDB, JavaScript, HTML5, CSS3, REST APIs, JWT Authentication.

- Developed a Bottle Brand Management System using MERN Stack.
- Built REST APIs for product and inventory management.
- Implemented secure user authentication and authorization.
- Designed responsive and user-friendly web interfaces.
- Integrated MongoDB for efficient data storage and retrieval.
- Optimized application performance and database operations.

Dual Layer Security System For Communication (Android Application)

[Dual-layer-Security-System-for-Communication](#) [\[GitHub\]](#)

Kotlin, Android Studio, Jetpack Compose, MVVM, AES-256, SHA-256, LSB Steganography, Android Security Crypto.

- Developed a secure Android application using AES-256 encryption and LSB steganography for confidential data transmission.
- Implemented message encryption, embedding, extraction, and decryption features for end-to-end secure communication.
- Built the application using Kotlin, Jetpack Compose, and MVVM Architecture for scalability and maintainability.
- Conducted testing and validation to ensure reliable encryption, steganography, and message recovery.

SKILS

Languages : Python, JavaScript, MongoDB, MySQL

Web Development : HTML, CSS

Technologies : Docker, Git, GitHub

Concepts : Cybersecurity, Network Security, Threat Detection, Anomaly Detection

Soft Skills : Lifelong Learning, Problem Solving, Critical Thinking, Leadership, Precision

CERTIFICATION

- GenAI Intern [CAIES_Certificates.pdf](#)
 - Introduction to Artificial Intelligence [Certificate.pdf](#)
 - Python for Beginners [Certificate \(1\).pdf](#)

September 2025

December 2025

December 2025

AECHEIVEMENTS

- Built an AI-based cybersecurity threat detection system as a major academic project.
- Implemented real-time anomaly detection using machine learning techniques.
- Developed a scalable and containerized application using Docker.
